ARE

WHO

THE COMPANY

Poly Pool S.p.A. is a leading company in the production and marketing of electrical equipment and small household appliances in Large-scale Retail Chains at an Italian and international level.

The company has been a partner of absolute reliability for over 40 years throughout the procurement process, from design to production, from the selection of the best suppliers worldwide to the accurate quality control of individual products in line with the highest international standards.

The commercial network in Italy and over 30 foreign countries and the internal logistics structure, with 40,000 square meters of warehouses and production units, allow the company to satisfy the service requests of national and international distribution, guaranteeing daily deliveries throughout the territory, even at individual points of sale.

THE DISTRIBUTION

The company oversees the shops and all the chains of the **large food distribution**, do-it-yourself, electronics, hardware and household items with a range of over 5,000 items, ranging from civil and industrial electrical material to small household appliances, kitchen and personal care.

The ability to offer a **wide range of solutions** and extensive product lines allows the company to meet the needs of the various distribution channels and consumers, but above all, to offer more and more innovative, reliable, safe and increasingly connected products in line with the new “Smart” solutions present in modern domestic and industrial environments.

The **internal** production and procurement **network** also allows Poly Pool to be a reliable partner for the supply of “private label” product lines for its customers, for which it oversees the selection and all stages of marketing.

QUALITY AND SAFETY

Poly Pool S.p.A. is a company of the Italian industrial group Scame Parre S.p.A. leader in the production of electrical material for civil, tertiary and industrial use.

For Poly Pool the production of the parent company lists an **offer of Made in Italy products**, both for electrical equipment and for some types of household appliances, made in modern production plants.

The products comply with **strict technical regulations** ranging from electrical safety to food contact to ensure safe and lasting use for consumers. The production in the Italian factories and the collaboration with the best international partners translates into **quality** that is ensured by the major Italian and international certification bodies (IMQ, VDE, UTE, KEMA-KEUR, SEMKO, NEMKO, etc.). to which the products are subjected in order to satisfy all the **requirements** of the regulations.

CERTIFICATIONS

The company is certified according to the ISO 45001: 2018 standard, which establishes the compliance of the management system for **health and safety in the workplace**, guaranteeing all company workers to operate in an adequate and safe environment.

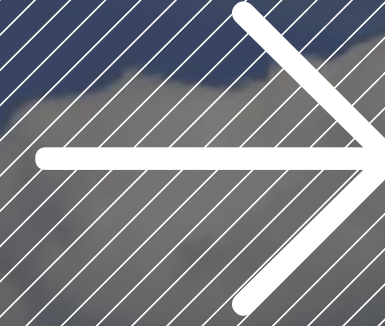

On the other hand, **respect for the environment** takes the form of continuous adaptation to all guidelines that go in the direction of sustainability not only on products but also in packaging and in all business processes to minimize waste and the intensive use of resources.

CES - RV I SEE

LOGISTICS

- 1 . Internal integrated logistics system for the management and automated tracking of orders and deliveries.
